**Subject:** Request for Net Metering Action

Dear Deborah,

This country needs to do everything possible to lessen our dependence on non-renewable energy sources. To that end, our governments, businesses, and utilities need to provide incentives to encourage people to invest in renewable energy. Net metering is a vital link in the process of creating the necessary incentives to encourage this kind of development. The vast majority of the states in this country have recognized the importance of this issue. Let's bring South Carolina along - soon.

Thanks very much.

Sincerely,

John J. Carroll, owner
